**Subject:** Proposed Speculative Position Limits on Energy

John Beiswenger 23 Mountain View Blvd South Burlington, VT 05403-5827

April 14, 2010

David Stawick Secretary, Commodity Futures Trading Commission Three Lafayette Centre 1155 21st Street, NW Washington, DC 20581

Dear Mr. Stawick:

Please adopt rules to eliminate the speculation in oil futures. The only persons who should be permitted to buy and sell oil futures are those persons with a demonstrated history of using oil, with proof that they will likely use oil in large quantities in the future, processors, or those who can be shown to buy oil in large amounts and deliver it for sale in smaller quantities. People should be licensed and permitted to buy futures only if they meet those criteria. The rest of those crazy, antisocial investors should learn to invest in something that will produce social good, instead of destroying our economy to further line their pockets with gold ribbon.

Sincerely,

John Beiswenger 802-878-8343
