RE: RIN 3038-AC61

I have just heard about the proposed limitation of 10:1 leverage in forex accounts, & I am appalled to say the least! PLEASE DO **NOT** DO THIS!!! You're killing us with all these new regulations. Your efforts should be on regulating brokers (mandating their capital requirements – good). But keep your hands off of our trading methods & leverage (no hedging, FIFO, & less than 100:1 leverage – BAD).
