re: Proposed Federal Speculative Position

Dear Sir:

Thank you for this opportunity to comment on the issue of position limits for precious metals. I believe we need a speculative position limit in Comex silver of 1500 contracts and no more. Please establish this and restrict any hedging exemptions from those limits as well to legitimate hedgers. I feel it is most important to market fairness to stop the levels of concentration in Comex silver futures that we have been seeing in recent years on the short side of the market.

Thank you for your efforts to improve the integrity of our markets.

Sincerely,

Dennis D. Potokar
