**Subject:** Metal Markets Manipulation Exists

---

Dear CFTC,

I hope and pray that you do NOT weaken and allow this fraud and criminal activity to continue.

I know that great powers are behind this market manipulation process.....that fact alone should make exposing the fraud and eliminating this practice a must....Even if our own dollar must suffer as a result...then so be it!

What are we all about....if unjust financial choices have been made by our gov't in the past and it's now time to "pay the fiddler"....then so be it. It is time to get our house in order.....YOU can start this by doing what is right....eliminate the continued fraud/manipulation that exists in the metals markets. In the end you could take pride of having done the right thing for our people and country.

Sincerely, The Soderberg Family (Erik, Lance, Brett, Karen, Mark)  
Riverside County, CA
