**Subject:** Regulation of Retail Forex

---

Dear Secretary

I just heard that the regulation for trading the Forex may change by reducing leverage from 100 to 1, to 10 to 1. I sure hope that this will not happen. I have been unemployed and now I have been trying to make some money trading in the Forex. If this change occurs, then I will not be able to make anything. My account is very small, and a change to a 10 to 1 leverage will destroy any attempt for me to make money.

Please don't let this change occur.

Thank you.

Sincerely.

Gary McCool
