Subject: Regulation of Retail Forex

Hello,

Trading currency with 1-10 leverage is impossible.
Currencies movement are quite solid. It moves around 1%-2% per day which is more solid than US stocks like Microsoft.

People will be able to trade Forex with 1-100 leverage but not with 1-10.
Even prime brokers offer 1-33 / 1-50.
I think retail Forex should be able to offer 1-100 leverage up to \$50,000 balance

Regards,

Lior Finkler - General Manager
