If this monstrous nonsense first of all, the economy of the USA will suffer is made!!!!!!!!!!!!!!!!!!!!!!

Why?

Because 1:10, it means to beat the air or work for nothing, it is vain to spend precious time. Therefore, all normal traders will take away the actives from territory of the USA and will open the accounts in those companies where there will be a shoulder 1:100!!!!!!!!!! They will open the accounts in the companies with a shoulder 1:100!!!!!!!!!!!!!!

Such places on a planet much, it is the European and Asian regions. Probably the economy of the USA became very rich if the country leaders dare to hold on public service of many idiots, and to spend time for their discussion idiots offers in вечати and on the Internet.
