RE: RIN 3038-AC61

Dear Commissioner Luken:

I'm writing to protest any regulation the CFTC proposes, that decreases my available leverage for Forex trading.

Instead, I request that you channel your agency's effort toward the protection of investors against fraud.

I do not want, welcome or require the U.S. government to be involved in how I manage my currency trading strategies or business.

Regards,
David Blaylock
