CFTC Comments

Dear CFTC Comments:

I encourage the CFTC to adopt the Proposed Federal Speculative Position Limits before volatile fuel prices further harm the country's already weakened economy.

Wall Street's speculative trading in oil not only hurts the economy, but hurts every American who pays excessive prices at the pump, for groceries, home heating oil and everything related to transportation.

Please support the CFTC's proposed Federal Speculative Position Limits. Let's reestablish speculative position limits on major energy commodities.

Sincerely,

Carole Henry
